Wind and Cut Worms Trying to Discourage The Farmers

**Takes Lots of Those Things
Enclosed by the Peritoneum
to Hold up Courage Against
the Prevailing Plagues of the
Season.**

This truly is a season of extremes. To begin with we experienced an extremely long winter. This came along what a lot of people considered an extremely late and wet spring. Then on Monday came an extremely violent wind that was extremely harmful to wheat that had gotten nicely through the ground and also to seeded land in sandy areas and in patches where the chinook could get a good side swipe at it and blow the surface mulch away. To day is running the wind a close second. It's easy to sympathize with those who go bugs trying to progress during times like these, but there's still hope that we will see fairly good returns for our efforts.

o o o

The cut worms have started in their work in a great many instances and it will need careful watching to see that they do not get out of control. So far there has been no complaint on early plowed summerfallow land, but the pests can travel fast enough.

o o o

Seeding is just about at an end. A few odd patches here and there are all that remain of the wheat fields to be done. A good settling rain would put pep in the people and do a lot to overcome the cutworm pest. Foster hit the violent wind part of his prediction but it yet remains to be seen whether the drenching rains will follow.

Our Own Ideas

Canada's new system of taxation introduced by the Minister of Finance, Sir Henry Drayton, in his budget speech made before the House of Commons on Tuesday, May 18th., will do more than any other method of legislation we can think of towards bringing home to the people the actual conditions as they do exist. The special war tariff has been removed and in its place the people are placed under a heavy burden of direct taxation, particularly any who are inclined to fly a bit high. The tariff is such an indirect and illusive way of collecting revenue that the common folk know not and care not what

SOME OF THE SPECIAL PRIZES TO BE AWARDED AT THE FAIR

We Have Several Cinched Already if the Competition Doesn't Get Too Strong.

W. H. SMITH:—\$5.00 cash for best single horse driving turn-out, driven by lady.

the government is costing them—and that is the one particular reason why "the farmer is being legislated against". But when the cost of government comes up before him every time the purchase of a new suit or pair of boots is necessary, it's a sure thing he will get to the poll on election day. There are many holes to be poked in the new legislation and we doubt that the government introducing it will long survive from the reaction. For instance, the excise tax on automobiles has been increased. Why should a man be compelled to pay a heavy tax when he purchases a car and a heavy yearly license all during the time he operates it? Either one tax or the other should be written off. As for the much abused phrase "conscription of wealth," we can see

nothing to it. A rigid enforcement of the Income Tax laws would cover the ground, but the government apparently has never felt disposed to dig up the unscrupulous. We were told not long ago of a Calgary doctor who boasted of a twenty thousand dollar a year practice and also of the fact that he never filled in his income tax returns. It takes more than the threat of heavy penalties to crank up the conscience in some men. We are not bolshevik enough to believe that the country would progress and prosper without the individual's incentive to accumulate wealth and knowledge. This commune stuff is all right for those idealistic and accomplished Russians, in fact our cows do well on it too. But we in Canada prefer to allow the individual to harvest

the fruits of his endeavors, and we must not tax hard enough to kill ambition. As for phonographs and diamonds, a man seldom looks at them in the light of real values, but if a man will go fishing he must pay for his bait.

Poultry Expert in Lomond, Tuesday, June First

The Agricultural Society have secured the services of a government poultry expert to address an institute meeting in the I.O.O.F. Hall, Lomond, on Tuesday evening, June 1st. Demonstrations will be given in the culling of poultry flocks. The public is invited to attend. The Vulcan poultry enthusiasts are greatly elated over the results of this work among their flocks and it bringing this branch of farm industry into a real profit producing basis.

Get Acquainted

With the Lines Listed Below

Should our fondest hopes for a bountiful harvest this year become an accomplished fact, and it must be admitted that every indication points to that end, nearly every farmer will of necessity have to restock his equipment of farm machinery. We do not ask or expect you to obligate yourselves right at the present time, but do respectfully ask you to look up the merits of the lines listed below, so when the time does come to buy your mind will be made up and you will be in a position to make your purchases without doubt or indecision.

CANADIANS NOW UNDER NEW SYS- TEM OF TAXATION

Ottawa, May 18.—The following is a summary of the taxation proposals submitted to parliament by the minister of finance this afternoon:

LUXURY TAXES

Ten percent of the total purchase price on boots and shoes costing over \$9 a pair; men's and boy's suits costing over \$45; men's and women's overcoats costing over \$50 each; fur coats and robes over \$100 each; woman's dresses over \$45; woman's suits over \$60; and on hats, hose, neck wear, shirts, purses and gloves costing above certain specified figures, as well as on some other wearing apparel; all fans, opera glasses cut glassware, velvet and silk fabrics, lace, ribbons, silk embroideries and sporting goods. Also on trunks over \$40 each and valises, suit cases, etc., over \$25 each. This tax to be paid by the purchaser to the vendor at the time of sale.

Ten percent on pleasure boats, yachts canoes, motor boats, cameras, candy and confectionery, chewing gum, fire arms, shells or cartridges, pianos, organs, musical instruments and plated ware adopted for household use. This tax payable at the time of sale by Canadian manufacturers or when imported.

Twenty percent of total purchase price on such articles as cigar and cigarette holders and pipes costing over \$2.50; humidors and other equipment for smokers, hunting, shooting, and riding garments, fancy pocket knives, gold, silver, ebony, and ivory toilet ware, jewelry, articles of silver adapted for household or office use, fur wearing apparel (except as mentioned above), liveries, oriental rugs, expensive carpets and curtains, and chandeliers. This tax payable by purchaser at the time of purchase.

Twenty percent on mechanical player pianos, graphophones and mechanical instruments and records used therewith. Fifty percent on articles of gold for household use.

Latter two taxes to be paid at time

For Sale

3 young mares, broken to drive both double and single, also good saddlers, ready for hard work, weight on or about 1075 each. Will sell on terms to good party.

6 sections iron harrows; 1 16-16 disc harrow, with tongue; 1 14-16 disc harrow, without tongue (both discs without trucks); 1 mower and rake, almost new; 1 3 1/2 in. steel skein wagon with double box, brake and seat; 1 set double driving harness; 1 good saddle; 1 small sized cook stove; 1 small sized heater; 1 buggy with shafts or pole, or both; 1 U. S. A. 14-in. gang plow, stubble bottom; 1 16-run single disc Superior drill. Above goods are in good condition and ready for immediate use. Terms on machinery, one-third cash, balance on lien note due 1st. Nov., 1920.

Any person desiring a dwelling house, barn, granary, etc., belonging to the estate of the late Dugald McArthur, should see the undersigned. Terms cash, but prices are right.

See Geo. Whitley or N. Holden.

Mr. Farmer . . .

When you purchase stock or machinery you are satisfied to pay more for the best. Why not use the same good judgment when placing insurance on your growing crops? We can still sell you the best protection at the same price you pay other agents for the poorest.

of sale by manufacturer or when imported.

Playing cards, 25 cents a pack on cards selling at wholesale rates not over \$25 per gross packs and 50 cents a pack on cards above \$25 per gross packs.

Beer, wines and spirits—Increase in excise duties on beer of 30 cents a gallon; spirits, \$2 a gallon, and on sparkling wines, \$3 a gallon.

Motor cars—Excise tax on Canadian manufactured and imported cars increased from 10 to 15 percent.

SALES TAXES

One percent of the sales on all manufacturers, wholesale dealers, jobbers or importers not retailers. This tax not to apply to large list of essential food-stuffs, cattle foods, anthracite or bituminous coal or to goods exported.

Stamp duties—excise taxes on checks continued but rate increased on bills of exchange and promissory notes. Two cents for bills of \$100 or less and two cents for each additional \$100 or fractional part thereof.

Stamp duties on patent medicines, etc., henceforth to be affixed by the manufacturer or importer, instead of retailer as now.

Film tax of 15 cents for each day used abolished, because of inequality of incidence as between small and large theatres.

All above taxes are effective from tomorrow, the 19th. instant.

INCOME TAX

By last year's legislation income taxes payable this year on 1919 incomes were very substantially raised. A further general addition to these taxes of 5 per cent is now added on incomes of \$5000 and up, to be effective this year.

In future income tax returns must be accompanied by a check of at least

25 per cent of the whole of the amount estimated to be payable. If paid in instalments, interest at 6 per cent is to be charged and payment in full is required within six months after return is made in three equal bi-monthly instalments. Heavy penalties are provided for incorrect returns.

BUSINESS PROFITS TAX

Present tax is modified by increasing the exemption allowed from 7 to 10 per cent and changing the schedule of taxation to the following:

On profits in excess of ten per cent on capital but not exceeding 15 per cent, tax will be 20 per cent.

On profits in excess of 15 per cent on capital but not exceeding 20 per cent, tax will be 30 per cent.

On profits in excess of 20 per cent on capital but not exceeding 30 per cent, the tax will be 50 per cent.

On profits in excess of 30 per cent on capital, tax will be 60 per cent.

For small businesses with capital of not less than \$25,000 and under \$50,000, twenty per cent on all profits exceeding 10 per cent will be taken instead of 20 per cent as at present.

Under legislation of last session the maximum scale of business tax is in effect this year and the modified tax will apply to 1920 profits taxable in 1921.

TARIFF CHANGES

The 7 1/2 percent war customs duty is taken off all remaining items. Last year the five percent British preferential war tax was entirely removed, as well as the 7 1/2 per cent on food, clothing, agricultural implements, etc. The war customs duties imposed in 1915 are now entirely removed.

Sir Henry also announced that public sittings for tariff revision would be held

throughout Canada after prorogation. "Our policy," he said, "calls for a thorough revision of the tariff with a view to the adoption of such reasonable measures as are necessary. Articles of luxury," said Sir Henry, "should be heavily taxed. Food commodities and other necessities of life, not produced or manufactured in Canada, should, if taxed at all, bear only such impost as were necessary for revenue purposes."

LOCALETS

The Rebekahs are highly delighted over the results of their ice cream service last Saturday. Something over thirty dollars to the clear was realized.

Sandy Mitchell and H. E. Branscombe came up from Travers on Wednesday to see the new model Fords that were being unloaded by W. A. Teskey.

Geo. Hough who has been up in the Drumheller district is back to Lomond again and piloting one of the municipal road graders.

Dad Ficht, the reactionary member from Midway, Father Hill, Lomond's cattle buyer, and Brother McClung, one of the large farmer progressives, are all back on the job after their winter's hibernation.

Base Ball Hoppers to Assemble May 28th.

Its been so long since there has been a dance in Lomond that those lovers of this pastime will welcome the Base Ball Hop on Friday night. As is stated on the bills the evening is not only for those who "hop", but is to be opened with a whist drive, or five hundred for those who care more for that game. The tables will be started out at 8:30 sharp and three hours will be set aside for the purpose of deciding who has the best luck. Young and old, fat and thin, short and tall, blonde and brunette, rich and poor will all unite in the drive to give Lomond a good-base ball team for 1920.

THE U. S. BOTH SHY AND HIGH ON SUGAR

Treherne Times—:Letters received during the the last few days from the United States emphasize how very scarce sugar is on the other side of the line. Soft or "C" grade sugar, the very poorest of the yellow sugars, is the only sugar to be had.

It is hard for us to realize in Canada where we have large supplies of nice white granulated sugar, that in the large city of Duluth, and in other big centres, they haven't any sugar today and they do not expect to have any supplies for two or three weeks, and then only soft or "C" grade sugar.

In the United States it is freely rumored that sugar will be selling to the consumer before the summer is over at 35 cents per pound, or more.

From this information you will readily realize that sugar is a very precious commodity. The public should conserve their sugar.

Don't forget the Base Ball Dance on Friday, May 28th.

TRAVELLERS AND OTHER OUTSIDERS tell us that the Lomond public is buying its groceries at a decided saving over the prices charged in many other towns operating out from the same center of distribution. We maintain that a great percentage of your advantage is due to methods introduced by us, and only ask the opportunity to further demonstrate to you the saving it is possible for you to accomplish by bringing your patronage to this store. Highest Quality Goods sold on Lowest Possible Margin.

EGGS
Same as Cash.**

More About 'Hoppers We Should Know

Toward the end of March numbers of young grasshoppers were noticed in Southern Saskatchewan, but these were of coloured-winged species, which are not of economic importance. The two species, the eggs of which are expected will hatch in early May, are known as the Lesser Migratory Locust and the Pellucid Locust.

Both federal and provincial officials are in close touch with conditions generally, and with prompt action from all concerned when the threatened outbreaks occur, there is no reason why the pest should not be kept within bounds.

In 1919, applications of poisoned bait saved thousands of dollars worth of growing crop. The poisoned bait which was largely used consisted of: Bran, 50 pounds; Paris green or white arsenic, 2 pounds; molasses, 4 quarts; orange or lemons, 6 fruits; water, 5 to 6 gallons. In preparing the mixture the bran and poison are mixed thoroughly while dry. The juices of the oranges or lemons are squeezed into the water and to this is also added the pulp and peel after cutting into fine pieces. The molasses should then be added and, when dissolved, the mixture should be poured on the dry bran and poison, stirring the whole constantly so as to dampen the bran thoroughly. In the preparation of the bait it is wise to guard against breathing in the fine particles of poison. This may be avoided by tying a handkerchief loosely over the mouth and nose.

The bait should be scattered thinly by hand from a wagon or light rig, care being taken to prevent any large lumps forming. Early morning is the best time to spread poisoned bait so that the locusts will be attracted to it before they feed to any extent on growing crops. As they eat very little during cloudy, cold, or rainy days, bright, warm days should be chosen for scattering the bait. In badly infested areas it is frequently necessary to spread the bait at regular intervals of four or five days before the insects are finally brought under control. In locust-infested areas, farmers should organize early in the season, so that when the young grass-hoppers appear in large numbers, poisoned bait may be prepared quickly and widespread made at

the same time. Prompt community action is of the utmost importance in dealing with an insect like the locust, which occurs in such enormous numbers and over widespread areas. As an instance of the value of community action, we have only to cite an experience in 1915, when about 30,000 acres of growing crop in St. Etienne-de-Gras and adjoining parishes were treated with poisoned bait within a period of two or three days, and as a result 95 per cent of the locusts were killed, and crops saved in some fields where, owing to continued outbreaks of these insects, nothing of value had been harvested for several years.

The Board of Trade requested J. H. Williamson to take up with his company the question of bran supply. The letter below speaks for itself.

Medicine Hat, May 13th., 1920.

Mr. J. H. Williamson,

Lomond, Alta.

Dear Sir:

We have yours of the 11th. with regard to the possibility of there being a grasshopper plague this summer.

We are saving all the bran that we can spare, to be used in case this pest should make its appearance in large numbers.

Just at present we have been ordered by the Canadian Wheat Board to ship two cars of bran to the Saskatchewan Government at Regina to be used for this purpose.

We hope that we may have a little on hand should it be required at your point. Of course we cannot guarantee as we are under the orders of the Canadian Wheat Board, and they may order every pound of bran we have shipped on their account.

Yours truly,

The Ogilvie Flour Mills Co., Limited,
A. F. Andrews, Manager.

A GOOD SIGN

Thos. Wilkinson of Regina who has been in Western Canada for more than thirty-five years, thinks that late seeding during a season like the present usually presages bumper crops. He states that he sown wheat as late as June and harvested fifty bushels to the acre. He says that late springs are invariably the best crop producers in the west.

ARMADA ORGANIZING BOY SCOUTS

The dance and box social which took place at the Armada Hall to raise funds for Boy Scouts of Armada passed, as all our previous dances have done, namely: a decided success, and we wish to thank the Lomond people that turned out and helped us in this endeavor and hope they had an enjoyable time. We were favoured by a summersault by one of the party which was not billed on the programme, but nevertheless was pulled off very successfully and caused a little excitement.

Our flour manager, Mr. Magnuson, did himself justice by favoring us with some nice dances. The orchestra which was composed of Spears, H. Manning, R. Howell, and Earnest Oakland, was superb. Toward midnight the boxes were sold by W. E. Howell aided, by Arthur Latter, our proposed Scout Master, and we realized the magnificent sum of fifty four dollars. One box made in the true likeness of W. Howells car, a Buick McLaughlin manufactured by Mrs. Glen Dawson, brought the highest price. The other boxes were magnificent and shows what our ladies Armada can do in the art of trimming.

Stewart Galbreath and Miss Galbreath were with us at the festive board, renewing their youth, Mr. Galbreath only just getting in of the road barely having time to get ready. Mark Harris capricated at the door pinning on the ribbons and taking in the money.

Thanking one and all who helped to make the above a success also the \$54.00 which we so appreciate especially after a dry year.

Per "The Boy Scouts of Armada."

Before the war, Russia was the principal source of imported lumber for western European countries.

More raw cotton is consumed in the United States annually than in any other country.

The world's output of cocoa is estimated to exceed 8,000,000,000 pounds this year.

Between 1913 and 1918 the money stocks of gold in France decreased from \$1,200,000,000 to \$664,000,000.

The American library system is being widely adopted in foreign lands.

There are in the United States, it is said, 60,000,000 persons who have limited or no library service.

Former President Taft owns a walking stick made of wood that is thought to be 250,000 years old.
Ivory dust, properly boiled and prepared

makes a fine and pure jelly which is frequently prescribed for the sick.

The forest lands of the world are estimated to amount to about 4,000,000,000 acres, or about 24 percent of the world's total land area.

Consumption of newsprint paper has increased 21 percent in the last five years, during which time production has shown a gain of only 5 percent.

Since Cortez first discovered cocoa in Mexico it has spread through the tropical regions of South America and through Africa and the East Indies.
